

The background of the entire page is composed of several sets of concentric, curved, light gray lines that sweep across the frame, creating a sense of motion and depth, reminiscent of wind currents or a stylized globe.

20
21

ANEMOS

The logo icon for ANEMOS is a stylized, circular emblem. It features a series of concentric, curved lines that form a spiral or vortex-like shape, with a small, dark, triangular element at the center, possibly representing a flame or a drop.

ANEMOS

GOD OF THE WINDS

The Birth

Anemoi, wind God of the four directions, the potent architect of seasons. Captivating the awe and stirring the passions.

ANEMOS was born of such ardour. Spinning mesmerizing symphonies with the winds, ANEMOS is a passionate ode to perfection.

In a labour of unconditional love, Anemos has strived to redefine the humble dispenser of winds into an unflawed work of art... captivating and stirring. The powerful trinity of design, function and technology has come together in a creation of a shockingly versatile range of wingers. Flaunting stunningly beautiful, quirkily vintage and soothingly sincere designs. ANEMOS boasts a collection of the best designer fans under a single roof.

Flashback to Sepia

Old friends Nipoon Agrawal, a stickler for perfection, and Rajkumar Jain, a creative maverick, decided to unleash themselves upon the unsuspecting fan on a fine day in 2004. In 2005, their efforts fructified as ANEMOS. Aficionados of luxury and taste, the duo redefined the way one looks at the ceiling at home, at work or in a public space, forever.

Pandora's Box

A heady mix of classic and contemporary is the simplest way to describe the phenomenon ANEMOS. A modern version of the antique 'punkah', or wings gently swaying like palm fronds, bladeless wind blasters or simply gorgeous chandelier fans, you are sure to find your show stopper.

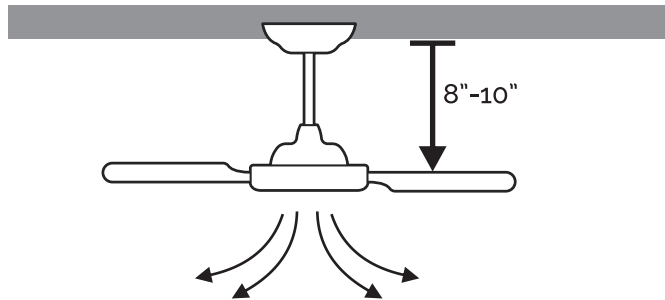

The house of ANEMOS offers fans from world-renowned companies like Vento, Fanimation, Minka Aire and Modern Fans. The genius works of internationally acclaimed designers including Karim Rashid, Ron Rezek, Oliver Kessler and George Kovacs can be found here.

But a perfectionist and a maverick duo would never stop here now, would they? Fine tuning the subtleties, ANEMOS developed its own extensive line-up of cleverly customised beauties. Wider blades perfected for a high angle of attack for maximum air flow even at low speeds, powerful heavy-duty energy saving BLDC motors (Brushless Direct Current), the fans are made from materials perfectly suited to Indian conditions.

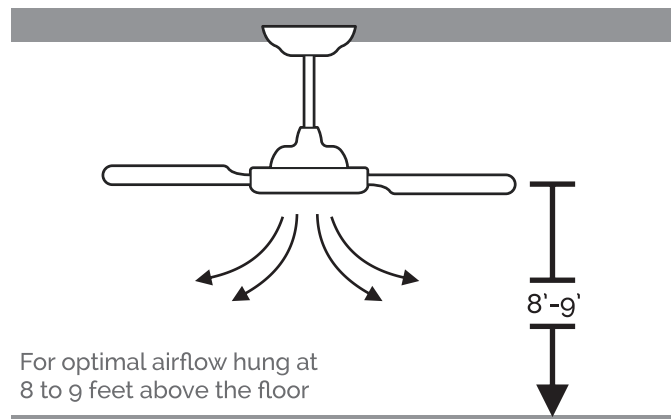

Oh! did we forget to mention that they're all whisper quiet?

ANEMOS invites you to the world of magnificent transformations of the humble fan to finally discover the perfect one for you.

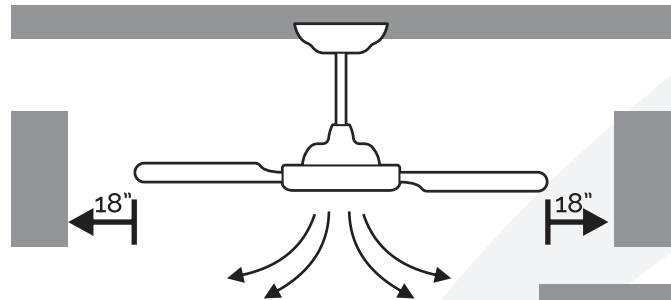

INSTALLATION GUIDE

Blades must hang at least 8 to 10 inches below the ceiling

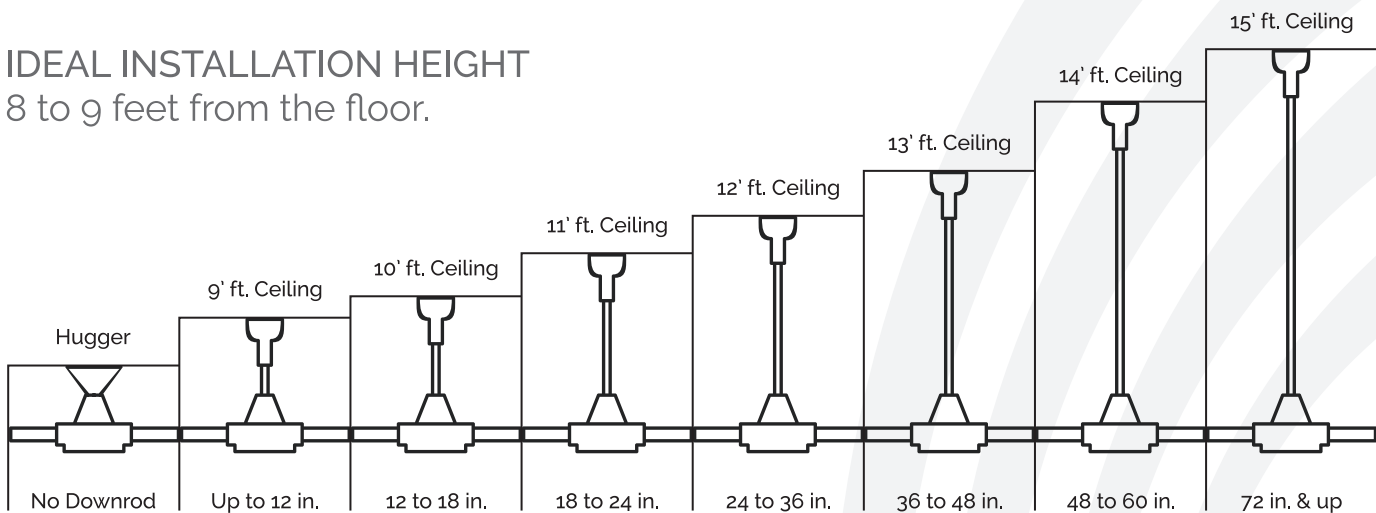

For optimal airflow hung at 8 to 9 feet above the floor

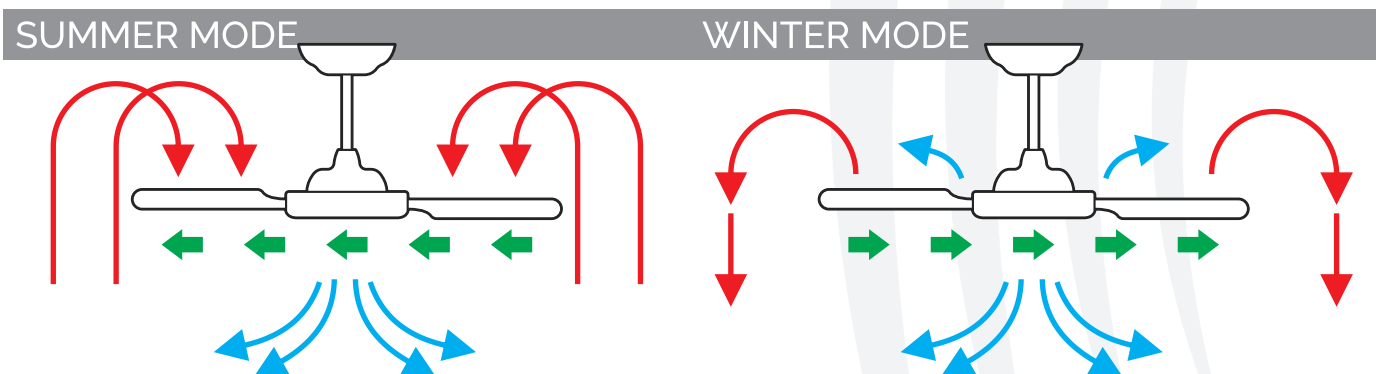

Blades must be at least 18 inches away from wall, doors, cabinets or posts.

IDEAL INSTALLATION HEIGHT 8 to 9 feet from the floor.

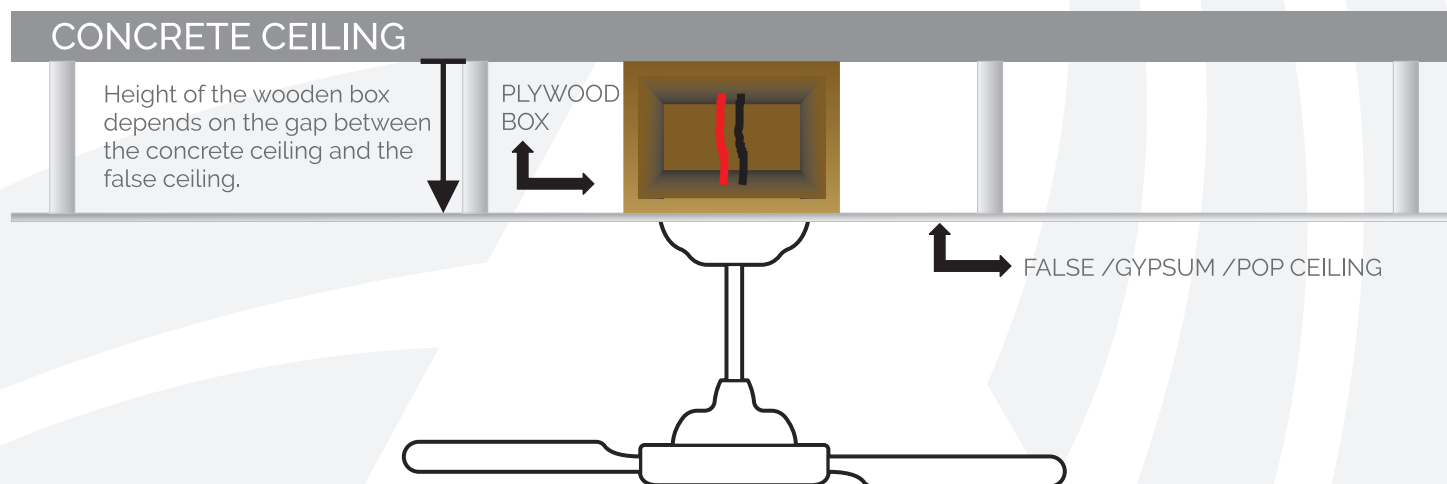

REVERSIBLE FUNCTION

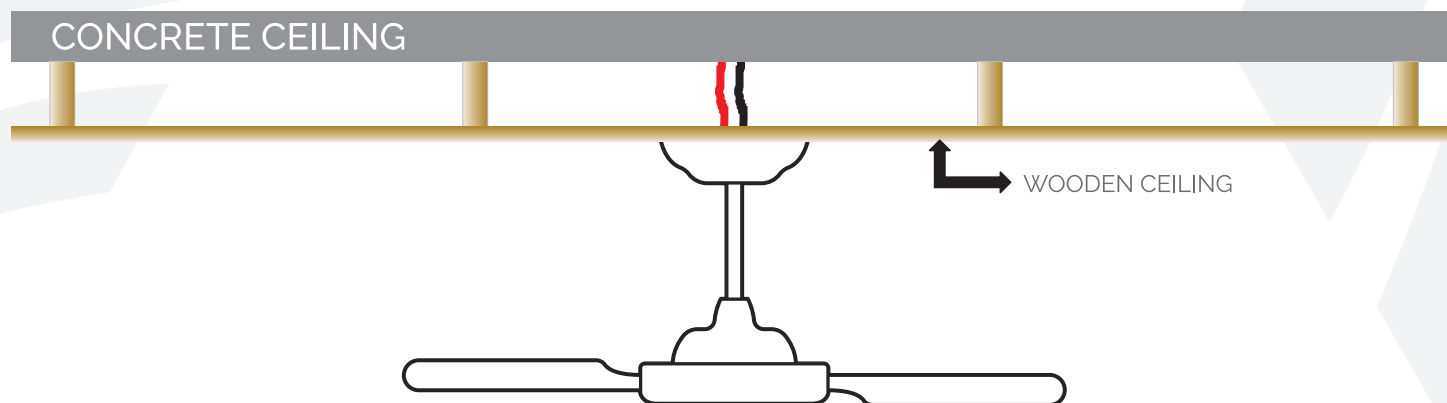

INSTALLATION PROCEDURE FOR EUROPEAN HOOK

ON FALSE / GYPSUM CEILING

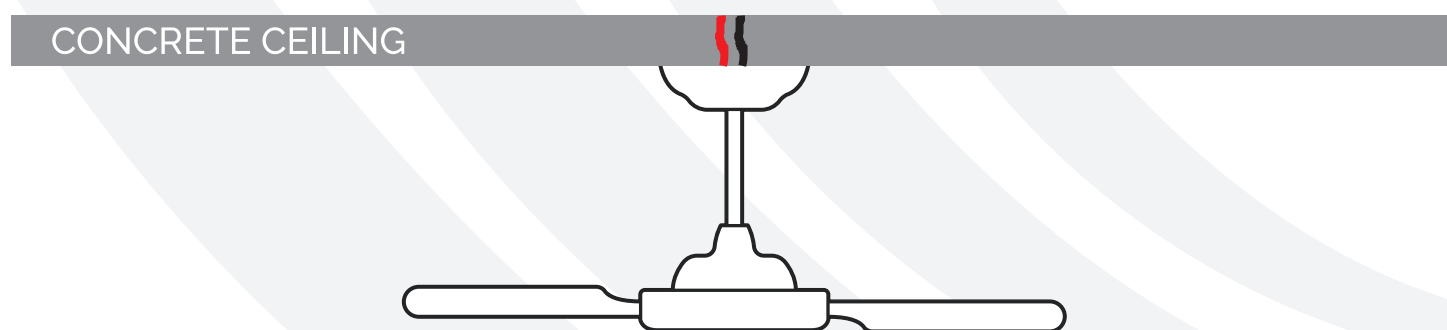

Fix a wooden box between the concrete and false ceiling, secure the box on the concrete ceiling with screws.
Install the false ceiling touching the base of the false ceiling.
Fix the fan on the false ceiling with screws, these screws will fix firmly on the wooden box, taking the entire weight of the fan.
Kindly Note: Our controller will sit in the fan cup on the top, hence preinstalled rod cannot be used to fix these fans.

ON WOODEN CEILING

Our fans can be directly installed on wooden ceilings.
A wooden ceiling of minimum 12mm plywood is required. Make sure the wooden ceiling is strong enough to take the weight of the fan.

ON CONCRETE CEILING

Our fans can be directly installed on a concrete ceiling.
It is recommended to use the original downrod and mounting kit provided along with the fan.

WARRANTY & DISCLAIMER

Warranty Period

- Ceiling fans are covered under a 5-year warranty against any manufacturing defects.
- Wall, table, pedestal & tower fans are covered under a 1-year warranty against any manufacturing defects.

Warranty Terms and Conditions

The Warranty stands void in case of below:

- Incorrect installation.
- Dry rated fan used or installed in damp or wet areas.
- Remote Controlled fans used with speed regulators/ dimmers simultaneously.
- Breakage or damage of components such as Lamp Shades (glass/plastic), blades or any other, arising from mishandling, abuse or accident. (Unless specifically occurred during transport/ transshipments)
- Bulbs/Lamps are not covered under warranty.
- Remote Sensor/ Remote control and batteries are not covered under the Warranty Clause.
- Damage from power surge, water damage, improper connection with alternative power sources like inverters, solar panels, batteries, UPS (Uninterrupted Power Supply) etc.
- In case of automation, the use of light dimmer of automation to control fan speed.
- Maintenance, service, repair carried out by unauthorized personnel.
- Broken gears due to manual adjustment of oscillating fans.
- Absence of proof of purchase.

ANEMOS reserves the discretion to adjudge where warranty is applicable.

Where warranty is applicable, ANEMOS will repair or replace any defective part.

In case on-site warranty is not possible, the product will need to be securely packed and shipped to ANEMOS, Mumbai for service. (Our service team will assist with the logistics.)

LEGEND TERMINOLOGY

**ENERGY
SAVER**

BLDC MOTOR

REVERSIBLE

DRY
indoor only

DAMP
indoor/outdoor

WET
indoor/outdoor

Energy Saver: 30% - 60% energy saving compared to conventional fans with AC motors.

BLDC motors: Brushless Direct Current motors are powerful & energy efficient. It is likely that most fans will use only DC motors in the future the way most light bulbs are now LED.

Reversible: Capable of rotating clock-wise & anti-clockwise to cause a reversible airflow drawing the air upwards or downwards. This function renders the fan especially useful for warming without a breeze during the winter.

Dry: Designed solely for dry indoor environment.

Damp: Fans equipped to withstand moisture & dampness but not direct spray of water.

Wet: Designed for outdoor applications. Equipped with higher weather withstanding capabilities.

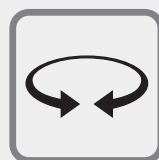

HIGH AIR

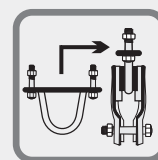

LIGHT

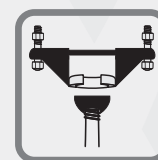

REMOTE

OSCILLATION

INDIAN HOOK

**EUROPEAN
HOOK**

High Air: Fans capable of displacing large volumes of air.

Light: Fan with light.

Remote: Fan with hand held remote.

Oscillation: Side to side swing mechanism changing the direction of airflow.

Indian Hook: Indian Shackle Kit Hook hanging installation.

European Hook: European kit Hook installation directly on wood / concrete.
