ISO 9001: 2008 Certified Company

USHA's range of water heaters are beautiful to look at and pack a technological punch too. Our wide collection offers best in class safety features like high grade thermostats that cut off electricity when temperature exceeds set limit and, an advanced Earth Leaking Protection Device. This delivers style and performance in a complete package, that complements your needs as well as your taste. Our newest innovations will only add to your USHA experience.

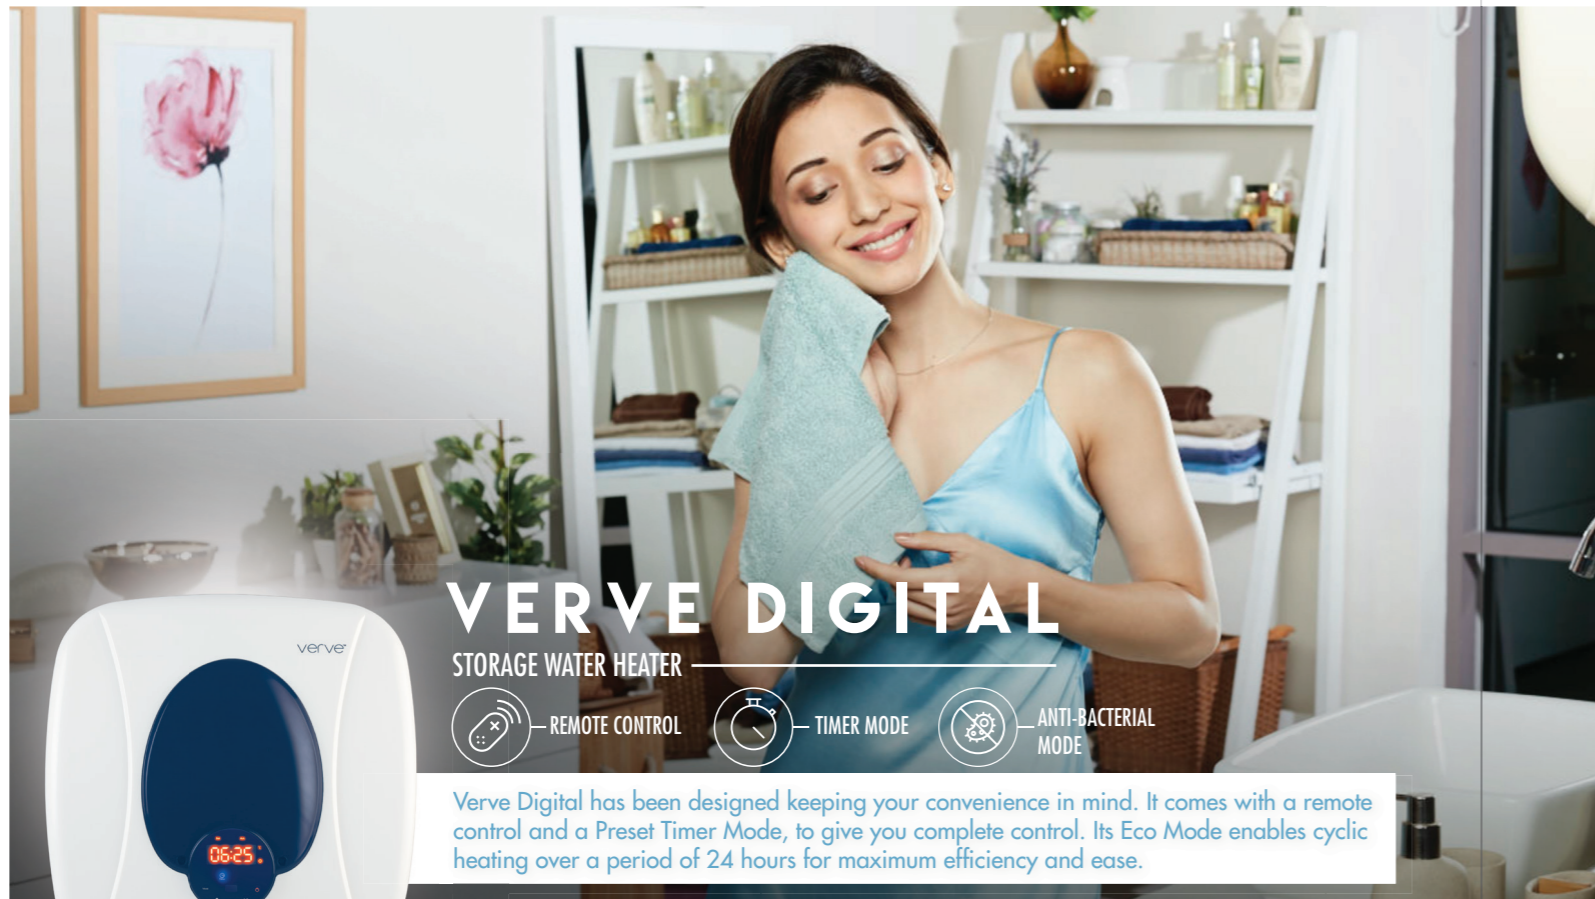

Whirlflow Technology, for faster heating and maximum energy efficiency.

Timer Mode and Auto-memory Function, for convenient, optimum heating.

Incoloy 800 element with glasslined enamel coating that increases the life of the element.

Blue Sapphire Glassline Coating, to prevent damage due to rusting and corrosion.

And, a variety of colours to brighten up every space.

VERVE DIGITAL

STORAGE WATER HEATER

REMOTE CONTROL

TIMER MODE

ANTI-BACTERIAL MODE

Verve Digital has been designed keeping your convenience in mind. It comes with a remote control and a Preset Timer Mode, to give you complete control. Its Eco Mode enables cyclic heating over a period of 24 hours for maximum efficiency and ease.

KEY FEATURES

Whirlflow technology for faster heating and maximum energy saving.

Single weld line on the inner tank, reduces water leakage risk.

Heavy duty magnesium anode rod to prevent rust and corrosion - enhances life even with hard water.

2 Year Warranty (product)
3 Year Warranty (Heating element)
8 Year Warranty (tank)

High-grade superior PUF insulation reduces heat loss, improves energy efficiency and enables faster heating.

High-grade heating element - Incoloy 800 element with glasslined enamel coating increases the life of element.

6 SAFETY FEATURES

High-grade thermostat (VDE Mark) and thermal cut-out (VDE Mark) cuts off electricity when temperature exceeds set limit.

High Pressure withstanding capacity of upto 8 bar, suitable for high rise buildings.

Dry heating Protection.

Multi-function valve that releases pressure when temperature exceeds the limit and prevents backflow of water. Also drains out water when safety is breached.

Earth Leaking Protection Device protects against electric shock in case of any leakage.

Weather proofing IPX4 protects against weather change anomalies.

AQUA GENIE

STORAGE WATER HEATER

As elegant as it is powerful, the Aqua Genie storage water heater offers great features like high-grade superior PUF insulation, dry heating protection as well as the ability to withstand high pressure. Safe and efficient, it is just what you need.

KEY FEATURES

Heavy duty magnesium anode rod to prevent rust and corrosion - enhances life even with hard water.

2 Year Warranty (product)
3 Year Warranty (Heating element)
8 Year Warranty (tank)

High-grade superior PUF insulation reduces heat loss, improves energy efficiency and enables faster heating.

High-grade heating element – Incoloy 800 element with glasslined enamel coating increases the life of element.

6 SAFETY FEATURES

High-grade thermostat (VDE Mark) and thermal cut-out (VDE Mark) cuts off electricity when temperature exceeds set limit.

High Pressure withstanding capacity of upto 6 bar, suitable for high rise buildings.

Dry heating Protection.

Multi-function valve that releases pressure when temperature exceeds the limit and prevents backflow of water. Also drains out water when safety is breached.

Earth Leaking Protection Device protects against electric shock in case of any leakage.

Weather proofing IPX4 protects against weather change anomalies.

5 STAR ENERGY EFFICIENT

AQUA GENIE

STORAGE WATER HEATER

The Aqua Genie storage water heater combines form with function. Its Whirlflow Technology results in faster heater and greater energy savings, while its beautiful aesthetics will surely brighten up your space.

KEY FEATURES

- Whirlflow technology for faster heating and maximum energy saving. 
- High-grade ABS material of outer body which makes it durable. 
- Heavy duty magnesium anode rod to prevent rust and corrosion - enhances life even with hard water. 
- 2 Year Warranty (product)
3 Year Warranty (Heating element)
8 Year Warranty (tank) 
- High-grade superior PUF insulation reduces heat loss, improves energy efficiency and enables faster heating. 
- High-grade heating element – Incoloy 800 element with glasslined enamel coating increases the life of element. 

6 SAFETY FEATURES

- High-grade thermostat (VDE Mark) and thermal cut-out (VDE Mark) cuts off electricity when temperature exceeds set limit. 
- High Pressure withstanding capacity of upto 8 bar, suitable for high rise buildings. 
- Dry heating Protection. 
- Multi-function valve that releases pressure when temperature exceeds the limit and prevents backflow of water. Also drains out water when safety is breached. 
- Earth Leaking Protection Device protects against electric shock in case of any leakage. 
- Weather proofing IPX4 protects against weather change anomalies.

AQUA GENIE

STORAGE WATER HEATER

This Aqua Genie variant is the precise balance of great technology and superior function. It brings you not just heavy duty performance, but also safety in usage, protection against leaking and weather-proofing. Plus, with its different size variants, you can choose what suits your needs the best.

KEY FEATURES

Whirlflow technology for faster heating and maximum energy saving.

2 Year Warranty (product)
3 Year Warranty (Heating element)
8 Year Warranty (tank)

Heavy duty magnesium anode rod to prevent rust and corrosion - enhances life even with hard water.

High-grade heating element - Incoloy 800 element with glasslined enamel coating increases the life of element.

High-grade superior PUF insulation reduces heat loss, improves energy efficiency and enables faster heating.

6 SAFETY FEATURES

High-grade thermostat (VDE Mark) and thermal cut-out (VDE Mark) cuts off electricity when temperature exceeds set limit.

High Pressure withstanding capacity of upto 6 bar, suitable for high rise buildings.

Dry heating Protection.

Multi-function valve that releases pressure when temperature exceeds the limit and prevents backflow of water. Also drains out water when safety is breached.

Earth Leaking Protection Device protects against electric shock in case of any leakage.

Weather proofing IPX4 protects against weather change anomalies.

QUADO

STORAGE WATER HEATER

The Quado is built to deliver, thanks to its high-power input, dry heating protection as well as a high-grade thermostat. Plus, its minimalistic design makes it a great fit for your space.

KEY FEATURES

Copper heating element for silent heating.

Single weld line on the inner tank, reduces water leakage risk.

High-grade superior PUF insulation reduces heat loss, improves energy efficiency and enables faster heating.

2 Year Warranty (product)
3 Year Warranty (Heating element)
8 Year Warranty (tank)

Whirlflow technology for faster heating and maximum energy saving.

Heavy duty magnesium anode rod to prevent rust and corrosion - enhances life even with hard water.

5 SAFETY FEATURES

High-grade thermostat and thermal cut-out to cut off electricity when temperature exceeds set limit.

High Pressure withstanding capacity of upto 8 bar, suitable for high rise buildings.

Dry heating Protection.

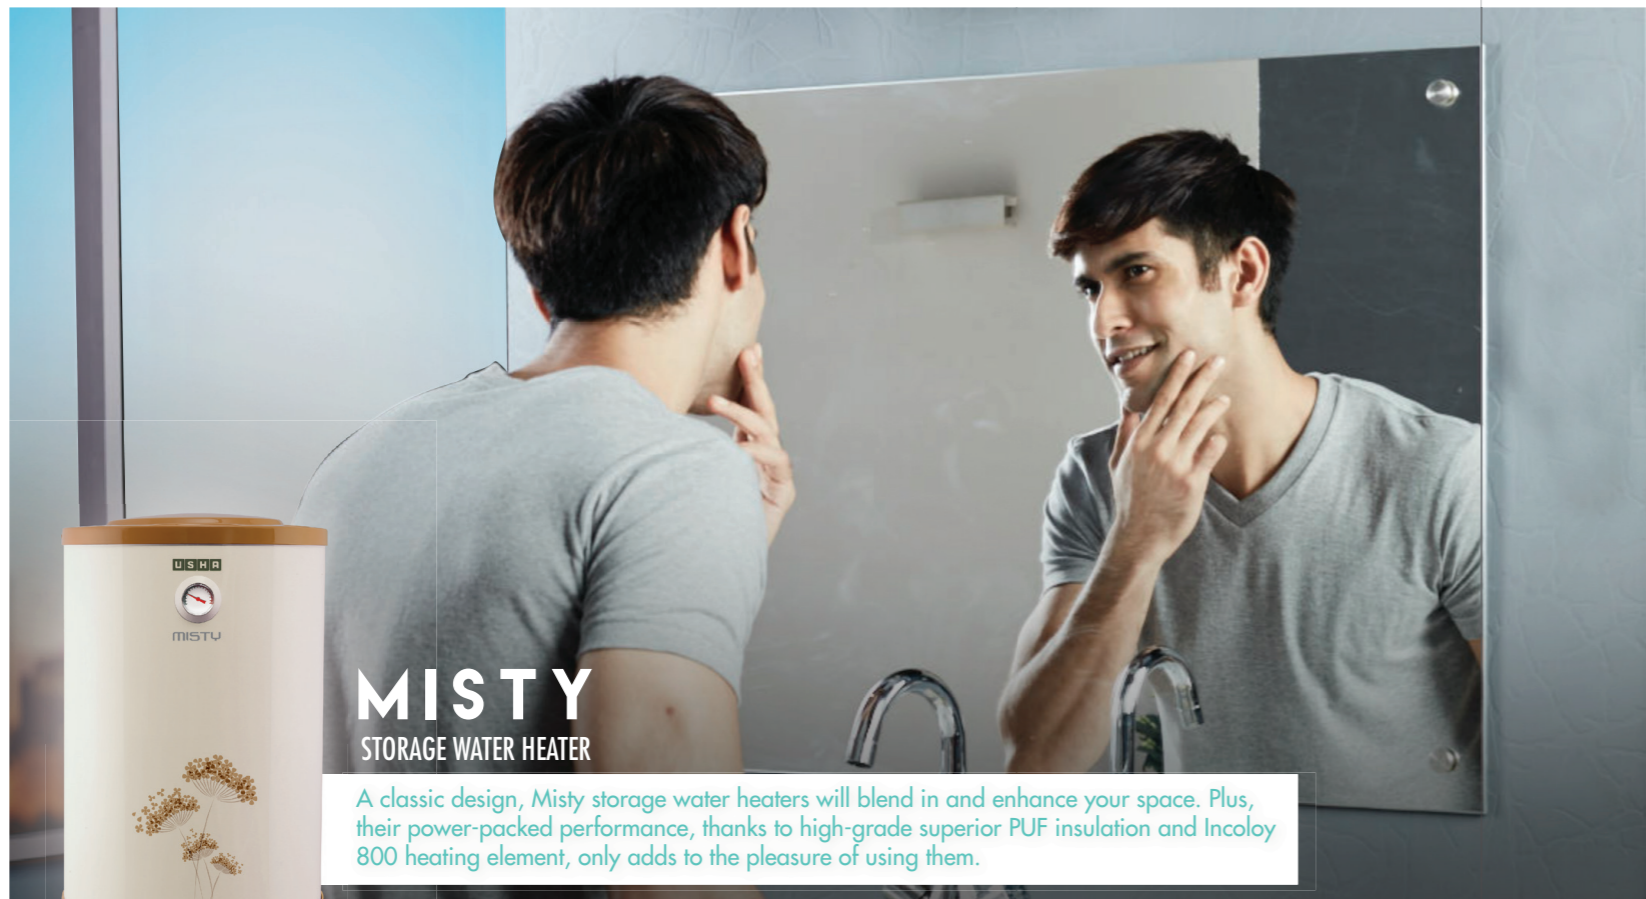

Multi-function valve that releases pressure when temperature exceeds the limit and prevents backflow of water. Also drains out water when safety is breached.

Weather proofing IPX4 protects against weather change anomalies.

5 STAR ENERGY EFFICIENT

MISTY

STORAGE WATER HEATER

A classic design, Misty storage water heaters will blend in and enhance your space. Plus, their power-packed performance, thanks to high-grade superior PUF insulation and Incoloy 800 heating element, only adds to the pleasure of using them.

KEY FEATURES

- Whirlflow technology for faster heating and maximum energy saving.   Single weld line on the inner tank, reduces water leakage risk.
- Heavy duty magnesium anode rod to prevent rust and corrosion - enhances life even with hard water.   2 Year Warranty (product)
3 Year Warranty (Heating element)
7 Year Warranty (tank)
- High-grade superior PUF insulation reduces heat loss, improves energy efficiency and enables faster heating.   Copper heating element for silent heating.

5 SAFETY FEATURES

- Capillary Type High Precision Thermostat and thermal cut-out cuts off electricity when temperature exceeds set limit.   High Pressure withstanding capacity of upto 8 bar, suitable for high rise building of upto 20 floors
- Dry heating Protection.   Multi-function valve that releases pressure when temperature exceeds the limit and prevents backflow of water. Also drains out water when safety is breached.
- IPX4 Protects against water splashes. 

INSTA FRESH

STORAGE WATER HEATER

Designed keeping modern decor in mind, the Insta Fresh range of water heaters comes in a wide variety of colours and designs. Balanced with great functionality, it makes them a great choice for your water heating needs.

KEY FEATURES

High-grade ABS material of outer body which makes it durable.

High-quality non corrosive Stainless Steel tank ensures durability for longer life.

2 Year Warranty on product
10 Year Warranty (tank)

5 SAFETY FEATURES

Thermostat and Thermal Cut-out with precise control of water temperature.

Leak Proof Single Body tank ensures longer life.

High Pressure withstanding capacity of upto 6 bar, suitable for high rise buildings.

Brass Fusible Plug for added safety which drains out water in case of excess temperature.

IPX4 Protects against water splashes.

INSTANO

STORAGE WATER HEATER

Instano is specifically designed to cater to the specific conditions of a high-rise building. The device is especially built to perform despite varying water pressure. It can withstand up to 6 bar of pressure. In addition to that, it is weather-proof and leak-proof. That, and its elegant aesthetic makes it just the right pick for you.

KEY FEATURES

High-grade ABS material of outer body which makes it durable.

High-quality non corrosive Stainless Steel tank ensures durability for longer life.

Copper Heating Element

2 Year Warranty on product
10 Year Warranty (tank)

5 SAFETY FEATURES

Thermostat and Thermal Cut-out with precise control of water temperature.

Stainless Steel Inlet and Outlet Pipe

IPX4 Protects against water splashes.

Brass Fusible Plug for added safety which drains out water in case of excess temperature.
